Estillon is part of **interfloor** Group Limited

- Stops the rug from shifting
- Light weight and easy to install
- Levels out small irregularities in the subfloor

# Underlays for Rugs

## How to stop a rug from shifting

Carpets and rugs bring warmth and show character in a home interior. We see them more and more often not only in homes but also at companies. But nothing is more annoying than that it unexpectedly shifts, or even worse, that someone stumbles because a corner is turned over.

To avoid these problems Estillon has an easy solution, namely a non skid underlay. Suitable for underfloor heating, 100% recyclable and not to forget, the carpet or rug lasts much longer. The non skid underlays of Estillon are available in four variants, namely the Luxerton range, Universal Stop and Non skid PES Felt.

### Luxerton

- Light weight and easy to install
- Levels out small irregularities in the subfloor
- Extends the lifetime and conserves the original appearance of the rug
- Produced environmental friendly out of 100% recyclable materials
- Suitable in combination with floorheating

- Non skid rug underlay for under rugs
- Produced out of a latex impregnated needle felt
- Suitable for application on carpet, parquet, laminate, ceramic tiles, cork and LVT

- Lightweight non-slip underlay
- Produced out of high quality needle felt with double-sided latex non-slip coating
- Suitable for application on carpet, parquet, laminate, ceramics, cork and LVT

### Universal Stop

- Light weight and easy to install
- Levels out small irregularities in the subfloor
- Produced environmental friendly
- Suitable in combination with floor heating

### PES felt

- Light weight and easy to install
- No plasticizers / 100% recyclable
- Produced on order / Volume of carpets
- Suitable in combination with floor heating
- For industrial applications under carpets
