# Underlays for carpet

Carpet is a popular flooring option. It is attractive, comfortable, and luxurious. If you want to achieve the best performance and long-lasting quality from your carpet, you need to install it with a quality underlay.

The carpet underlays guarantee stable, sustainable installation, and enhance the perception of the carpet's luxury and comfort.

**Starbase 6 mm / 8 mm**  
Lightweight and easy to install  
Environmental friendly produced  
and 100% recycled material

**Elegance Black FR 6 mm**  
Very high pressure-recovery  
capacity | Environmental friendly produced  
and 100% recycled material

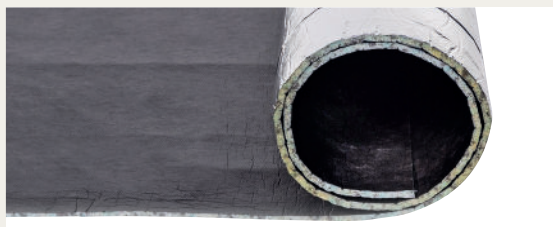

**Flamecheck 4/6/8 mm**  
IMO flame retardant underlay  
Suitable for the double-stick  
and stretch-fit installation of carpets

**Renu 6 mm**  
100% recyclable, completely sustainable,  
CO2 neutral | Excellent thermal insulation

**Oceanbase Contract FR 6 mm**  
IMO flame retardant underlay  
Excellent compression recovery capability

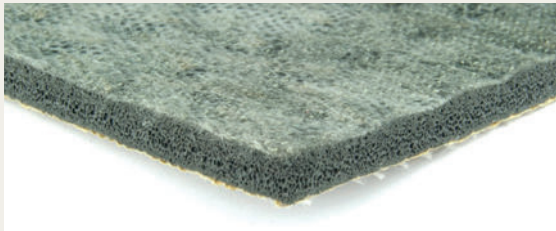

**Fenixbase 4/6/8 mm**  
IMO flame retardant underlay  
Environmentally friendly production and 100% recycled

**Egalsoft FR 6 mm**

Very good equalizing power  
Removable system without damaging the base floor

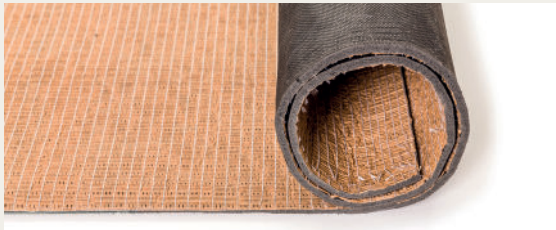

**Duralay Technics 5 mm / 6 mm**

Durable sponge rubber  
Proven reputation for contract installations  
Suitable for double-stick

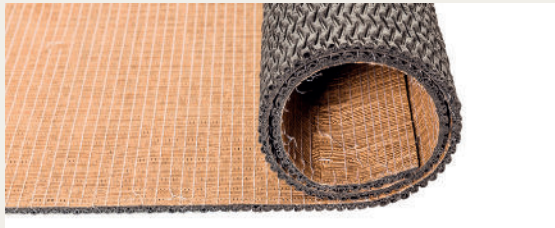

**Duralay Duraft 500 5 mm / 650 6,5 mm**

World's leading double stick system  
Ideal for heavy & wheeled traffic areas  
High density crumb rubber

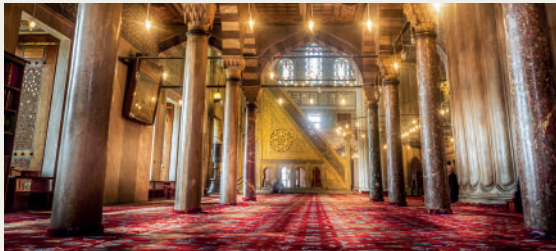

**Black Pearl 5 mm**

Extremely suitable for underfloor heating  
Smoothing small unevennesses in the subfloor

**Black Diamond 6 mm**

Especially suitable for floor heating  
Stable base for installation and easy process

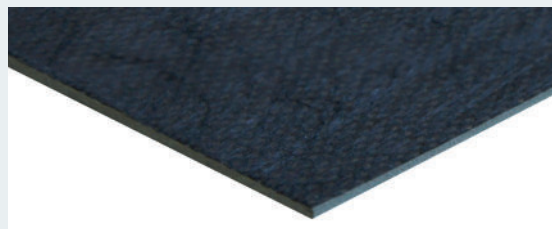

# Underlays for LVT, wood and laminate

With the installation of LVT click, LVT dry back or wooden flooring the application of the right underlay is essential. Especially in commercial area's where high standards are requested.

Estillon offers a complete set of underlays that can meet these requirements. Our underlays are timesaving by being fast and easy to install. Also they provide acoustic comfort, great stability and mask minor surface imperfections.

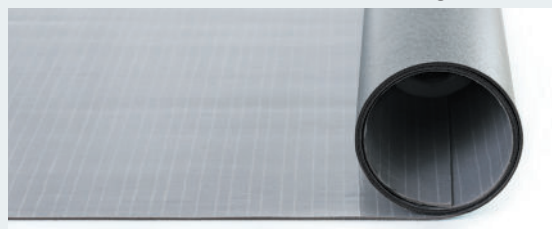

**Timbermate Excel 3,6 mm**  
Especially suitable for floor heating  
Specialist underlay for wood & laminate floors

**LVT Multi-Fit 1,5 mm**  
IMO flame retardant underlay | Improved noise reduction specifically designed for LVT flooring

**Sonixx Resilient 250 2,5 mm**  
Acoustic resilient layer  
Quick and easy to install  
Suitable in combination with floor heating

**Solidbase SK 1,8 mm**  
No use of traditional adhesives  
Quick installation due to self-adhesive layer  
Floor can be used immediately after installation

# Floorfixx fast levelling system

Floorfixx is the underlay for linoleum, cushion vinyl, LVT, click LVT, carpet, carpet tiles and engineered wood. These underlays allow you to create a new, insulating and flat underlay in a dry and easy way. Furthermore, these underlays can bear load immediately, there is no need to wait until the underlay is dry. This is a major advantage compared to wet levelling. Timesaving, simple and clean.

- Fast levelling system
- Immediately ready to finish your floor
- Simple to install as a floating system
- Reduces noise (10 dB  $\Delta L_{in}$ /23 dB  $\Delta L_w$ )

## Floorfixx regular 9 mm

Renovation of poor basic floors  
No waiting or drying time and it can bear load immediately

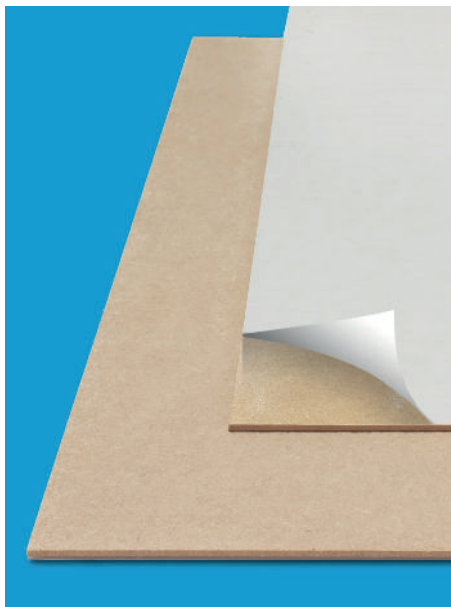

## Floorfixx comfort 10 mm

Suitable for underfloor heating and floorcooling due to its low thermal resistance  
No waiting or drying time and it can bear load immediately

## Floorfixx smart 8 mm

Levels out unevenness and provides maximum stability | Guarantees a smooth, flat base for your installation

## Floorfixx optimum 8 mm

Rapid installation due to self-adhesive layer  
No use of traditional glue

## Why we advise to use Estillon underlays and subfloors?

Welcome to Estillon, we produce and supply a suitable underlay for every situation.

Through years of experience in project design, such as hotels, casinos, theaters, office design and cruise ships, we are a specialist in this field.

Choosing the right underlay is not always easy. The range is large and there are many factors to consider. It is therefore important to ask yourself in advance which properties you find important in a floor. This provides a lot of extra enjoyment afterwards!

### Comfort

We have various underlays that will guarantee you a feeling of comfort and luxury.

### Longer lifespan

The right underlay not only provides more living pleasure, it also extends the lifespan of the floor!

### Fire retardant

We supply specialized, fire-resistant underlays and carpets. After all, good fire-retardant material can save lives.

### Noise reduction

To prevent noise nuisance, installing sound-reducing underlays is very important. A sound-reducing underlay dampens contact noise.

### Suitable for floor heating

For optimal use of the underfloor heating, we have special underlays in our range with a low resistance value (R-value).

### Heat insulating

A good heat-insulating underlay ensures that the heat is retained in a room for longer. In addition to saving on your energy bill, this also provides extra comfort under your feet.

### Levelling and stabilising

Leveling and preparing a floor must be done very accurately. After all, the final finish that you use must be tight. The Floorfixx system range guarantees a stable subfloor. With these subfloors you can easily create a new, insulating and flat underlay in a dry way. In addition, the underlays of the Floorfixx range can also be directly loaded. This saves you a lot of time compared to wet levelling.

### Sustainable

In order to contribute to a circular economy, we are constantly innovating with new (more) sustainable products. Our sustainable products can be recognized by the Green Choice logo, so that you can easily make a sustainable choice. Both the sustainable subfloors and underlays are made from recycled material.

## Technical Specifications

Product name	Thickness	Weight in gr/m <sup>2</sup>	Type	Fire retardancy	Installation method	Impact sound reduction	DiBt cert.	VOC
Starbase	6/8 mm	960/1280	Recycled rebond polyurethane foam	Bfl-S1	DS / SF	27/29 dB Δlw	x	x
